

# STAGEBOX

## BOOK A HEADSHOT SESSION

All clients require Stagebox recommended headshots to be represented. You can choose the photographer of your choice from the list below.

All headshots should be booked asap (and within one month) after signing Stagebox Management contracts. The sooner we have your new headshots the sooner we can start representing your child and there are plenty of options to suit every location and budget. Please note, the photographer fee is paid directly to the photographer, however, we ensure our clients receive the best rates available and we also have confirmation of upcoming headshot sittings.

Headshots should be updated regularly every 12 months, so they represent your child and maximise their chances of success. We insist that every child is accompanied by an adult (18+) to a headshot sitting with an external photographer. Information on what to wear and what to expect for headshots will be provided on booking.
